1.2.1 - Environmental Issues Determined not to be Significant

The NOP and IS identified topical areas that were determined not to be significant. An explanation of why each area is determined not to be significant is provided in Section 7, Effects Found not to be Significant.

As indicated in the Initial Study, the following topical areas were determined not to be significant because of the design, location, or setting, or because of the implementation of mitigation identified in the IS. These topical areas are as follows:

- Aesthetics (with mitigation)
- Agricultural and Forestry Resources
- Biological Resources (with mitigation)
- Cultural Resources (with mitigation)
- Geology/Soils
- Hazards/Hazardous Materials
- Hydrology and Water Quality
- Land Use/Planning (with mitigation)
- Mineral Resources
- Noise (with mitigation)
- Population/Housing
- Public Services
- Recreation
- Transportation/Traffic
- Tribal Cultural Resources (with mitigation)
- Utilities/Service System
