**Re: Request for Mailed Notice of Actions and Hearings –
Mulqueeney Ranch Wind Repowering Project
(SCH No. 2010082063)**

Dear Mr. Lopez, Ms. Campbell-Belton, and Mr. Young:

We are writing on behalf of **California Unions for Reliable Energy (“CURE”)** to request mailed notice of the availability of any environmental review document, prepared pursuant to the California Environmental Quality Act, related to the Mulqueeney Ranch Wind Repowering Project (SCH No. 2010082063) (“Project”) proposed by Mulqueeney Wind, LLC (a subsidiary of Brookfield Renewable), as well as a copy of the environmental review document when it is made available for public review.

The Project proposes to repower (i.e., redevelop) an estimated 518 previously existing wind energy turbine sites with up to 36 new turbines with nameplate production capacity rated between 2.2 and 4.2 megawatts (MW) each, that together will have a maximum production capacity of approximately 80 MW. The Project is

4838-001acp

Page 2

proposed on 29 nearly contiguous parcels extending over approximately 4,589 acres within the southeastern quadrant of the Alameda County portion of the Altamont Pass Wind Resource Area (APWRA) in northern California.

We also request mailed notice of any and all hearings and/or actions related to the Project. These requests are made pursuant to Public Resources Code Sections 21092.2, 21080.4, 21083.9, 21092, 21108 and 21152 and Government Code Section 65092, which require local agencies to mail such notices to any person who has filed a written request for them with the clerk of the agency's governing body.

Please send the above requested items by email and U.S. Mail to our South San Francisco Office as follows:
