Re: Public Records Act Request – JVR Energy Project

Dear Public Records Act Coordinator:

We are writing on behalf of California Unions for Reliable Energy (“CURE”) to request a copy of any and all records related to the JVR Energy Project (“Project”), proposed by JVR Energy Park, LLC (a subsidiary of BayWa r.e. Development, LLC). This request includes, but is not limited to, any and all applications, materials, correspondence, resolutions, memos, notes, analysis, electronic mail messages, files, maps, charts, and/or any other documents related to the Project.

The Project proposes to construct and operate a 90 megawatt (MW) solar energy facility and a 20-MW energy storage system on approximately 1,345 total acres located in unincorporated southeastern San Diego County. The Project area is located within the Mountain Empire Subregion of San Diego County and is adjacent to the community of Jacumba Hot Springs and the Jacumba Airport, and to the south of Interstate 8 (I-8).

This request is made pursuant to the California Public Records Act. (Government Code §§ 6250, et seq.) This request is also made pursuant to Article I, section 3(b) of the California Constitution, which provides a Constitutional right of access to information concerning the conduct of government. Article I, section 3(b) provides that any statutory right to information shall be broadly construed to provide the greatest access to government information and further requires that any statute that limits the right of access to information shall be narrowly construed.

We will pay for any direct costs of duplication associated with filling this request up to \$200. However, please contact me at (650) 589-1660 with a cost estimate before copying/scanning the materials.

Pursuant to Government Code Section 6253.9, if the requested documents are in electronic format and are 10 MB or less (or can be easily broken into sections of 10 MB or less), please email them to me as attachments.

My contact information is:

U.S. Mail
