Re: Able Grid Silverstrand Grid Energy Storage

Dear Chair Bennett and Board Members:

We write on behalf of **California Unions for Reliable Energy ("CURE")** to report that CURE has reached a legally enforceable settlement agreement with Silverstrand Grid, LLC to address the merits of the issues raised by CURE in its comments on Ventura County's consideration of Approval of and Authorization for the Department of Airports Director to Execute a Twenty-Five Year Lease for Development of an Electric Energy Storage Facility at the Camarillo Airport Business Park ("Project").

On December 17, 2019, CURE submitted timely comments to Ventura County on the County's proposed finding that the lease is categorically exempt from the California Environmental Quality Act. Subsequently, Silverstrand and CURE negotiated and executed a legally enforceable settlement agreement, which contains a measure to address greenhouse gas emissions. Based on the legally enforceable settlement agreement, the concerns of CURE have been settled and resolved and CURE has no further objections to the Project.
