RE: Olive Avenue Development Project (SCH # 2020120036)

Dear Daniel Casey,

On behalf of the **Southwest Regional Council of Carpenters** (“**Commenters**” or “**Southwest Carpenters**”), my Office is submitting these comments on the City of Rialto’s (“**City**” or “**Lead Agency**”) Draft Environmental Impact Report (“**DEIR**”) (SCH No. 2020120036) for the proposed Olive Avenue Development Project, a proposed campus oriented industrial project with two primary, divisible, buildings with associated surface parking and landscaping at 911 – 1093 Baseline Road, approximately 340 feet east of Fitzgerald Avenue in the City of Rialto, County of San Bernardino, California (“**Project**”).

The Southwest Carpenters would like to withdraw their prior January 20, 2022 comment letter regarding the Project’s DEIR.

If the City has any questions or concerns, feel free to contact my Office.

Sincerely,

Mitchell M. Tsai
