Justification/Reason for Appeal

Dinah's Sepulveda Project

CPC-2021-4937-CU-DB-SPR-WDI-HCA; ENV-2021-4938-SCEA

I. REASON FOR THE APPEAL

The Sustainable Communities Environmental Assessment ("SCEA") prepared for the Dinah's Sepulveda Project (CPC-2021-4937-CU-DB-SPR-WDI-HCA; ENV-2021-4938-SCEA) ("Project") fails to comply with the California Environmental Quality Act ("CEQA"). Furthermore, the approval of the Site Plan Review entitlements (CPC-2021-4937-CU-DB-SPR-WDI-HCA) was in error because (1) the City of Los Angeles ("City") must fully comply with CEQA prior to any approvals in furtherance of the Project and (2) the findings are not supported by substantial evidence. Therefore, the City of Los Angeles ("City") must set aside the Site Plan Review entitlements and prepare and circulate an Environmental Impact Report ("EIR") prior to considering approvals for the Project.

II. SPECIFICALLY THE POINTS AT ISSUE

The specific points at issue are set forth in the attached comment letter dated September 20, 2022. An EIR must be prepared to remedy these issues. Furthermore, proper CEQA review must be complete *before* the City approves the Project's entitlements. (*Orinda Ass'n. v. Bd. of Supervisors* (1986) 182 Cal.App.3d 1145, 1171 ["No agency may approve a project subject to CEQA until the entire CEQA process is completed and the overall project is lawfully approved."].) As such, the approval of the Project's Site Plan Review entitlements was in error. Additionally, by failing to properly conduct environmental review under CEQA, the City lacks substantial evidence to support its findings for the Site Plan Review entitlements.

III. HOW YOU ARE AGGRIEVED BY THE DECISION

Members of appellant Supporters Alliance for Environmental Responsibility ("SAFER") live and/or work in the vicinity of the proposed Project. They breathe the air, suffer traffic congestion, and will suffer other environmental impacts of the Project unless it is properly mitigated.

IV. WHY YOU BELIEVE THE DECISION-MAKER ERRED OR ABUSED THEIR DISCRETION

The City Planning Commission approved the Site Plan Review and adopted the SCEA for the Project despite substantial evidence in the record that the SCEA fails to adequately analyze the Project's environmental impacts and fails to incorporate all feasible mitigation measures to reduce the Project's impacts. The Department of City Planning should therefore have prepared an EIR and circulated the document prior to consideration of approvals for the Project. The City is not permitted to approve the Project's entitlements until proper CEQA review has been completed.
